

MySpa water diverter kit

- Transforms any kitchen tap into a filtered water dispenser
- To install use push-fit connectors
- On-off diverter switch, can be located in place of sinks tap-hole stopper or in the work surface
- When diverter is turned to 'on', the mains water will be redirected through a specialist filter cartridge located neatly under the sink
- When diverter is turned back 'off', the water will return to the unfiltered mains supply for washing dishes etc.
- Filter cartridge removes all additives such as chlorine and impurities and sediments giving an improved taste to water
- Filter cartridge lasts approx. 6 months, replacement filter cartridge is available - see below

Finish	Cat. No.
